

2023/03/16 PROJECT NAME	ONTARIO PROPERTIES	QUEBEC PROPERTIES	HOLDSWORTH GOLD PROPERTY	ISLAND POND PROPERTY
Region	Northern Ontario – Timmins/ Cochrane Area, and Hearst Area Canada		Northern Ontario – Wawa Canada	Central Newfoundland - Canada
Size	<p><b>Project 81:</b> Owns one contiguous block of land totaling ~25,000ha staked and patented mineral rights, including a 50% interest in recently acquired claims in Carnegie, Prosser, Wark and Kidd Twps (6,600ha) and an option on 4,800ha in Calder Twp.</p> <p><b>Townships:</b> Has optioned or agreed to purchase 307 and staked 256 mining claims ~11,992ha in Mann, Hanna, Duff and Reaume Twps</p> <p><b>Nagagami River Carbonatite:</b> 716 staked mineral claims covering ~14,600 ha</p> <p><b>Boulder property:</b> 214 staked claims covering ~ 4,500ha in Way Twp near Hearst.</p>	<p>Buckingham Graphite – 62 Claims (3,726ha)</p> <p>Cere-Villebon – 15 Claims (483ha)</p> <p>Laverlochere – 12 Claims (518ha)</p> <p>Havre St Pierre – 188 Claims (10,152ha)</p>	19 contiguous patented mining claims covering approx. 304 hectares - 16 claims in S. Corbiere Township and 3 claims in N. Esquega Township	Dec 23, 2021: The Company announced a Vending Agreement with two parties to option or acquire 576 mining claims (the “Claims”) in Central Newfoundland, covering an area totaling approximately 14,400 hectares (the “Transaction”).
Net Interest	Owns the mineral rights subject to a 2% NSR on the patented mineral rights. Holds a 2% NSR on staked mining claims in both Project 81 and Mann et al Twps  Noble has options to acquire 100% interest in the staked claims on the Boulder property, subject to a 2%NSR	Owns the mineral rights subject to a 2% NSR on the patented mineral rights	Owns 100% mineral rights subject 1-5% NSR and 5-10% NPI subject to payback of all historic costs	100%
Strategic Partner	<p>The Company is focused on seeking Joint Venture Partners to expand on all its exploration and development programs.</p> <p>Carnegie Twp – Group of Private Investors – NR 2017-08-25 Crawford Twp – Canada Nickel Company Inc – NR 2018-05-08 Calder Twp - Private Investor Dargavel Twp – Private Investor Kingsmill Twp – Canada Nickel Company Inc Aubin Twp - Canada Nickel Company Inc Nesbitt Twp- Canada Nickel Company Inc Mahaffy Twp – Canada Nickel Company Inc MacDiarmid Jamieson Twps - Canada Nickel Company Inc Mann et al – Noble - Optioned to Canada Nickel Company Way Twp – N/A</p>	N/A	N/A	N/A
Operator	<p>Noble Mineral Exploration Inc. Carnegie Twp – Noble/Group of Private Investors Crawford Twp – Canada Nickel Company Inc Calder Twp – Noble plus 141 optioned mining claims (~4,800 ha) Dargavel Twp – Noble Kingsmill Twp – Canada Nickel Company Inc Aubin Twp - Canada Nickel Company Inc Nesbitt Twp- Canada Nickel Company Inc Mahaffy Twp – Canada Nickel Company Inc MacDiarmid Twps - Canada Nickel Company Inc Jamieson Twp - Noble Mann et al – Noble Optioned to Canada Nickel Company Way Twp – Noble</p>	Noble	Noble	Noble
Target Commodity	Nickel-Cobalt-PGMs/VMS/Gold/Chromium/Copper/Zinc/Silver Boulder Property – Copper/Gold/PGM	Nickel-Copper-Cobalt-Gold-PGMs	Gold and Silver	VMS – Copper - Gold

2023/03/16				
Project Name	Ontario Properties	Quebec Properties	Holdsworth Property	Newfoundland Property
<b>Project Description</b>	<p>Project 81 was the subject of exploration programs in the early 1960's. There has been no significant mineral exploration work done in the project area since the 1980's.</p> <p>The Company believes the additional staked claims in Bradburn Township to be a potential faulted extension of the Kingsmill nickel-cobalt Deposit on Block A of Project 81.</p> <p>The Company believes that the staked claims in Mahaffy Twp. (4,855ha) and MacDiarmid Twp (3,681 ha) and recently optioned to Canada Nickel Company have interesting magnetic bodies and EM features that are similar to the Kingsmill and Crawford Ni-Co deposits.</p> <p>Cousineau Boulder: The significant discovery of the highly mineralized boulder was in an area that has not seen much past exploration. The discovery of the source of the boulder would be an important mineral find.</p>	<p>All three properties are highly attractive and have had results from past exploration.</p>	<p>The Holdsworth Property is host to 3 distinct geological environments</p> <ul style="list-style-type: none"> <li>i) Soocana Vein – Lode Gold in traditional quartz veins</li> <li>ii) Oxide Sand Zone – weathered oxide pyrite, and</li> <li>iii) Sulphide pyrite zones at depth</li> </ul>	<p>Totally unexplored project for Au and VMS</p>
<b>Current Stage</b>	<p><b>Lucas Gold Target:</b> In 2018 Noble completed 15 NQ size diamond drill holes totaling 3,183.93m covering approximately 650m strike length of the 1700m Gold Mineralized structure/trend identified from Airborne EM and Differential Mag Surveys. Noble also located a total of 37 historical drill-hole collars during this field program and twinned 3 (three) historical drill holes, namely holes L80-04 with LUC 18-21, L80-13 with LUC18-19 and L81-36 with LUC 18-20, see Table-1. Twinned holes were within a 5m to 15m radius of the historical drill collars. Gold mineralization in the Lucas Gold Deposit, is interpreted to be structurally controlled, discrete stacked lenses hosted in a pyrite + gold mineralized tuff unit and lends itself to vary in gold tenure and gold content within each discrete lens and subsequently throughout the mineralized tuff unit, and as such, exact gold grades would be impossible to duplicate even if the same lens was intersected, in any new drilling campaign.</p> <p><b>The Crawford Ni-Co-PGM Deposit:</b> After an initial drill program carried out by Spruce Ridge Resources the project was taken over for 22 million shares of Canada Nickel Company with 10million shares going to Spruce Ridge of which 5million have been dividended to its shareholders and 12million shares to Noble of which 10million shares were spun out to the Noble shareholders plus \$2mm (see NR 01/10/2019).</p> <p><b>The Project 81 Properties Option to Canada Nickel:</b> These properties have been sold to Canada Nickel for 3.5million shares of Canada Nickel which were dividended out to Noble shareholders in Q2 2022 by way off a Return of Capital. Noble has retained a 2%NSR on claims in Bradburn, Mahaffy and MacDiarmid Twps subject to a 50% buyback at graduated rates per project.</p> <p><b>The Mann et al Twps Properties</b> covering ~11,900 ha have been Optioned to Canada Nickel for cash, shares and exploration expenditures aggregating \$1.7mm (see NR 24/02/22)</p> <p><b>The Nagagami River Carbonatite:</b> Niobium and Rare Earth prospect of ~14,600 ha near Hearst in Northern Ontario on which a two hole drill program was completed in Q3 2022 resulting in a Rare Earths discovery.</p> <p><b>Boulder Project:</b> The Company will seek to identify the source of the boulder in 2023 following up on a helicopter airborne survey in 2022 and glacial till investigations in 2021. Diamond drilling is planned for 2023.</p>	<p>Buckingham – See NR 19/05/22 issued by Noble</p> <p>Cere-Villebon – See NR 22/02/23 issued by Noble</p> <p>Laverlochere – See NR 19/05/22 issued by Noble</p>	<p>2020</p> <p>See Aug 25<sup>th</sup>NR issued by Noble</p> <p>See Sept 03<sup>rd</sup> NR issued by Noble</p>	<p>Grassroots covering an EM/Mag anomaly with an ~25km strike length</p>
